APPLY TODAY!**

**CYBERSECURITY PROGRAM IN COLUMBUS, OHIO**

*Relocation Assistance Available*

Markesman Group has some new opportunities on the forefront supporting our Cybersecurity Program in Columbus, OH. The CTS Program provides the full range of IT services, technical and management expertise that support applications, software, hardware, infrastructure, and systems, across the DLA IT Enterprise. Support is provided for information technology solutions, technical support, maintenance, and sustainment; operations support; application development, maintenance and technical support; and lifecycle management. Additionally, the program also supports administrative program management support for IT program offices and DLA Information Operations (J6) Office. The program provides support technology services across the DLA Information Operations Enterprise, the DLA Program Executive Offices (PEO), and all other technology services currently supported through DLA Contracting Services Office (DCSO) acquisitions.

**DUTIES OF CYBERSECURITY ENGINEER:**

- Performs a variety of routine project tasks applied to specialized cybersecurity problems.
- Tasks involve integration of electronic processes or methodologies to resolve total system problems, or technology problems as they relate to cyber security requirements.
- Analyzes information security requirements.
- Applies analytical and systematic approaches in the resolution of problems of workflow, organization, and planning.
- Provides security engineering support for planning, design, development, testing, demonstration, integration of information systems.

**INCENTIVES:**

We are offering a \$2,000 referral bonus for every candidate a non-Markesman employee refers to the CTS program. We are also offering relocation assistance for candidates open to moving to Columbus, OH.
